

To celebrate Scots week we made some lovely art! We decorated a Scottish animal and added these to our own tartan design background. Do you like our bagpipes too?

Primary 1b have been combining their data handling skills with their IT skills.

"We love to visit the IT suite where we get to take turns with the mouse".

In primary 1b we have been learning about number bonds as well as consolidating our addition within 10. Working together with a hands-on approach has led to a lot of fun and learning within the classroom!
