

Primary 6 have got stuck into their new social studies topic, World War II. Here we see Europe in 1938, shortly after the Munich Agreement. Germany has just been awarded the Sudetenland.

As well as learning about the conditions in Europe that led to war, they have been finding out that the preparations for war had an impact on everyone and their everyday lives. Here are some of P6 wearing their model gas masks. (Yes, they all said “cheese”!)

In groups we have designed models of some of the ships, tanks and aircraft involved.

(HMS Illustrious, Lancaster Bomber, Spitfire, Cromwell Tank, U Boat and the Littorio, an Italian battleship.)

This engaging topic will go on to cover many aspects of war, including the blitz, air raid precautions, rationing, evacuation, propaganda and VE day.
