

P3b

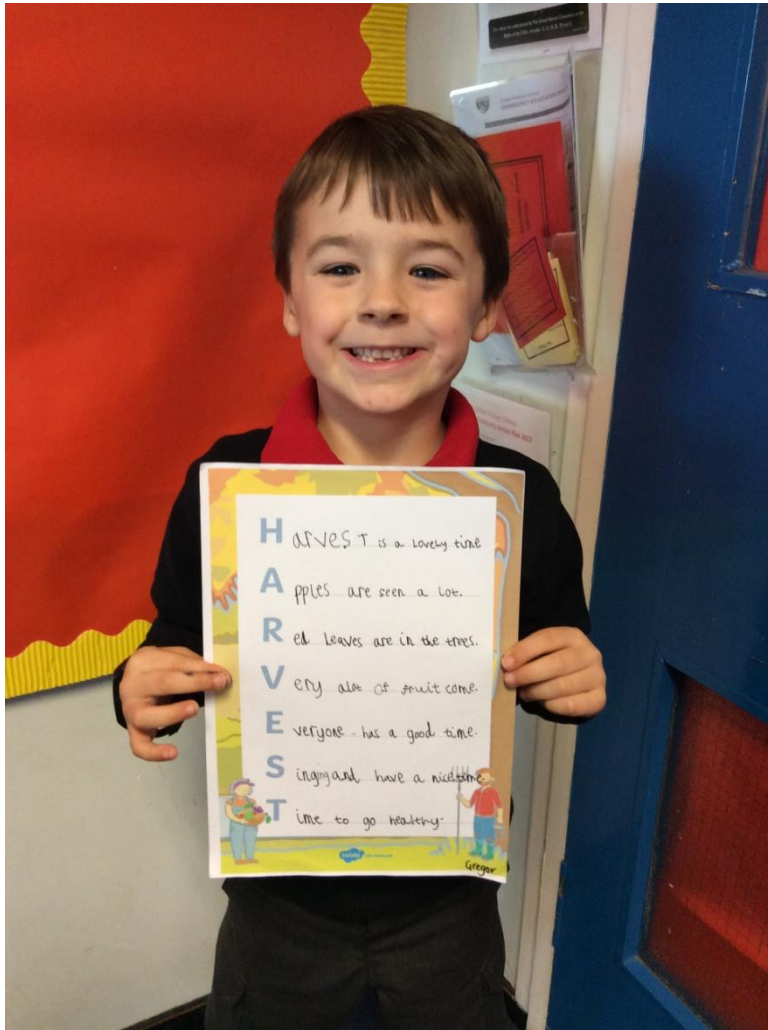

In literacy this term in P3b we have been working on our spelling. We use active spelling in class. This involves writing our spellings in bubble writing and rainbow letters. We find this very engaging and enjoyable. Additionally, we have been putting our coats on and heading outside to do active spelling. We use chalk, stones, leaves and sticks to spell out our words in the playground. We love these activities and it helps us remember our spellings.

In maths we have been learning about 2d and 3d shapes. This has been great fun and we have learnt about some tricky shapes. We have used model shapes, playdough and polygon to mould and build shapes. We have used bingo games and feely bags to help describe the properties of lots of shapes. Next up in maths we are working on rounding numbers.

Last month we worked really hard with P3a to create and perform our assembly on Harvest. We picked apples from the school garden and made apple crumble it was great fun and very tasty. We learnt how to write acrostic poems and then created our own about harvest. We worked really hard to learn a new song all about conkers, it was fantastic fun.

HARVEST is a lovely time
Apples are seen a lot.
Red leaves are in the trees.
Very lots of fruit come.
Everyone has a good time.
Everyone have a nice time.
Time to go reaping.
